

FOR IMMEDIATE RELEASE

Volkmann, Inc. Welcomes Bill Fucich, P.E.

April 19, 2011 -- Nick Hayes, president of Volkmann, Inc., is pleased to announce the addition of Bill Fucich, P.E. to the Volkmann team.

Fucich's professional engineering background, coupled with his long history in powder handling, having worked previously at Matcon and Fluid Energy, will serve Volkmann well. "Having worked with Bill for three years previously, we know his addition will help us significantly in our continued growth," said Hayes. "We look forward to his input and his experience in working with our manufacturer's representatives, as well as his technical knowledge in providing solutions for our customers."

Fucich is a graduate of The Pennsylvania State University's College of Engineering.

About Volkmann, Inc.

Volkmann manufactures high quality cGMP Vacuum Conveying systems, bag dump stations, unique No-Tip Unloaders and additional powder handling equipment for the safe transport of fine chemicals, granules, pellets, tablets and small components in lean, dense or plug flow conditions to, or from, bag opening, mixers, blenders and packing machines.
